

CURRICULUM VITAE

Address : Jln. Kuningan 10 no. 6
Antapani – Bandung
40291

Phone : +62 – 896 5625 1646
022 – 7207946 (home)

Final Project :
Airplane Simulator Model using Gyroscope Concept

|----------------------|-------------------------------------------------|
| Name | Royyan Wibisono |
| Place, Date of Birth | Bandung, 7 December 1989 |
| Email | royyanwibisono@gmail.com |
| Religion | Islam |
| Sex | Male |
| Height / Weight | 174 cm / 80 Kg |
| Marital Status | single |
| Hobby | Basketball, Drawing, Make 3D Game and Animation |
| GPA | 3.18 |

Educational Background

2008 – 2011 Polytechnic Bandung, Electronic Engineering

2005 – 2008 Senior High School 14 Bandung

2002 – 2005 Junior High School 14 Bandung

1996 – 2002 GRIBA 27/I Elementary School

Qualifications

| | |
|-------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Electronic Field | <ul style="list-style-type: none">• Capable using gauges (oscilloscope, multi-meter)• Capable to design and build electronic circuit• Good in microcontroller programming• Good in maintenance and repair• Understand Arduino's module |
| Programming Field | <ul style="list-style-type: none">• Capable programming in Notepad++, Atom, Sublime.• Understand Object Oriented Programming (OOP)• Experienced using this programming language :<ol style="list-style-type: none">1. C# (advanced)2. VB.NET (visual basic 6)3. Python4. JAVA5. C (microcontroller programming)6. PHP7. Assembly• Understand XML, JSON, .NET, OpenGL binding via OpenTK library, MySQL, SQL Server, HTML, CSS, Linq, ASP MVC 5, Javascript, Bootstrap, AngularJS, Google Polymer, JQuery, Laravel 5, WordPress, Android's native application development, QR-Code using ZXing library for Android, Web Services using PHP, Vagrant / Homestead, Git Command.• Understand 2D translation, rotation, scaling geometry object. |
| Operating System | WINDOWS, ANDROID, LINUX UBUNTU |
| Software / Tools | Visual Studio 2008/2010/2015, Sharp Develop, NotePad++, Atom, Sublime, PCVue, MS Office, Visio Drawing, Electronic Work Bench , Adobe Photoshop, GIMP, Altium Designer, Blender 3D, Android Studio, Eclipse, Git, |

CodeVisionAVR, CodeBlocks, AVR Studio, Python 2.7/3.2, Marvelous Designer, VirtualBox, Google Chrome, Mozilla Firefox.

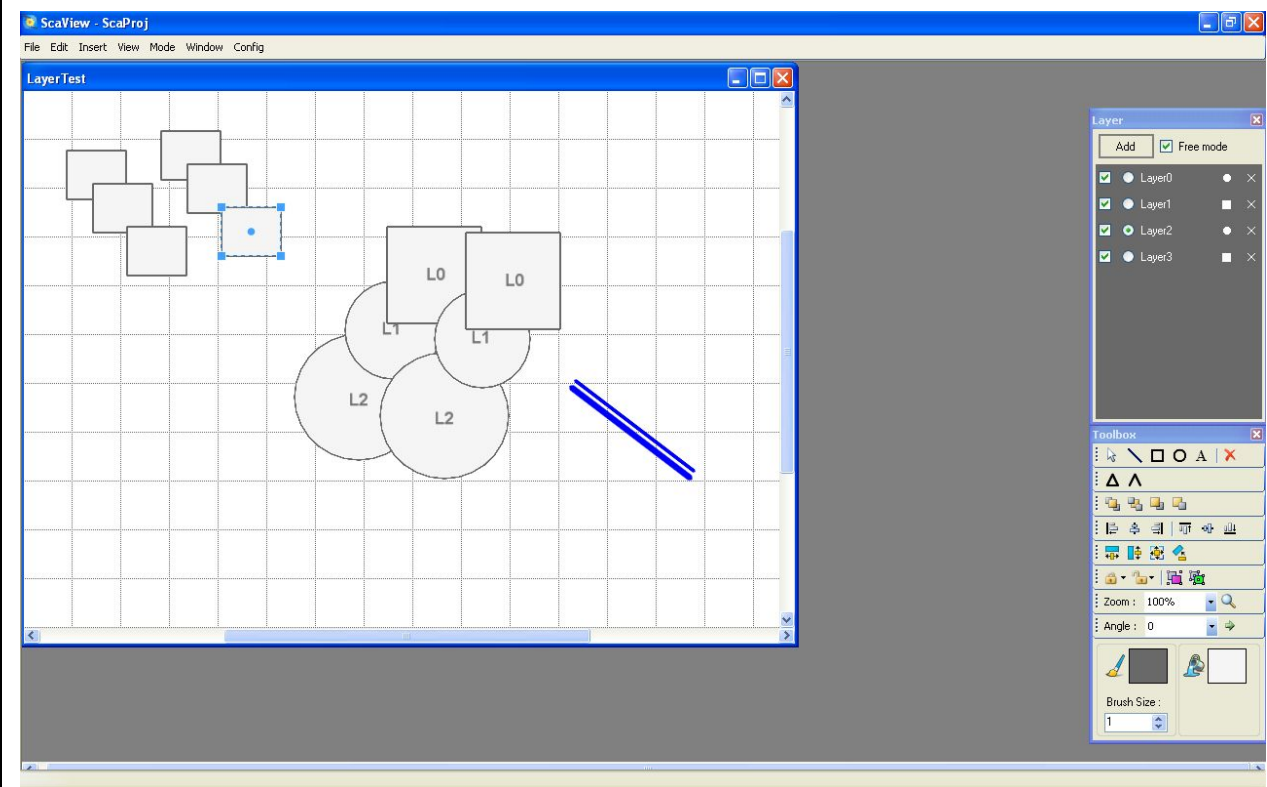

Working Experience

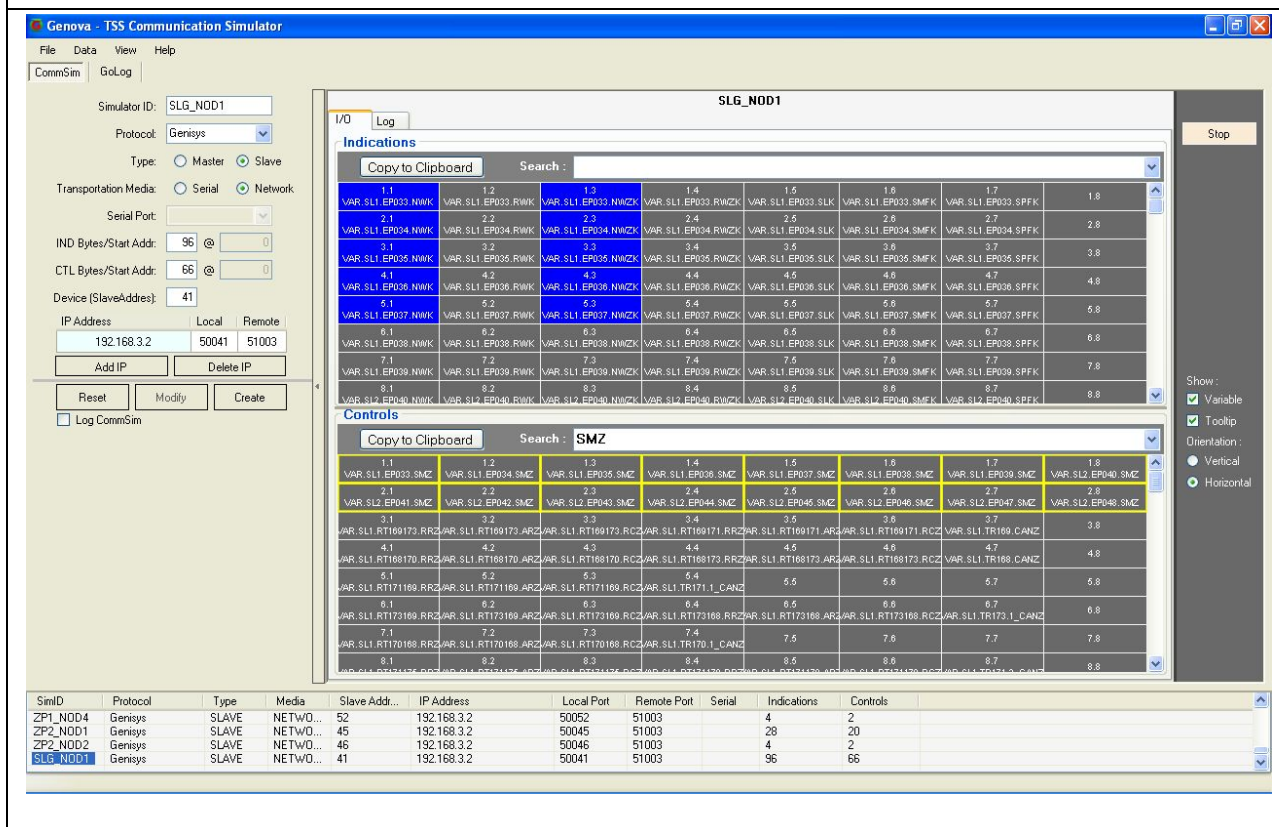

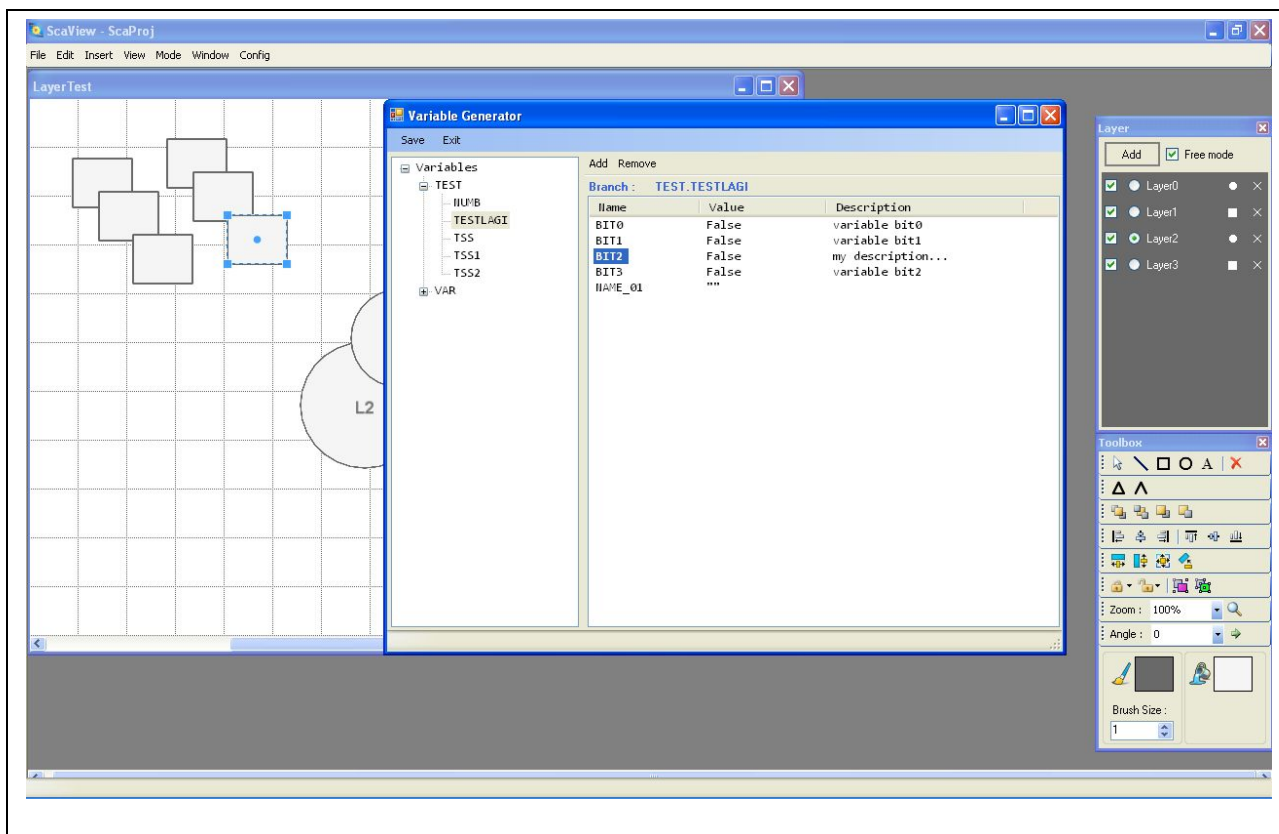

| | |
|--------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Nov 2014 – Now | TRANSPORT SYSTEM SOLUTIONS INDONESIA, PT <ul style="list-style-type: none">• Develop software and tools for Simulation, HMI Design, and Develop SCADA software. Web Development (Freelance). |
| Oct 2011- Oct 2014 | ALKMAAR ASIA PACIFIC, PT Develop software and tools for Simulation, and HMI Design. |
| 19 Jul-3 Sept 2010 | PT Dirgantara Indonesia (Praktek Kerja Lapangan) : AVIONICS |

Bandung, November 24, 2015
